

EMS WIRING SYSTEMS PTE LTD

(Company Registration 199004714G)

78 Playfair Road #01-00, Singapore 367997 Tel: 64442988 Fax: 64441884 Email: ems@emsgroup.biz

Preamble

EMS has been able to deliver quality design and installation of LCD-TVs, Projectors, Surround Sound systems, Video Conferencing connectivity etc. Each AV setup varies from small meeting rooms to conference rooms as well as Auditoriums. Photographs below show a sample set-up with some complementary devices. Note that a big part of Video Conferencing is in the preparation of the room and the complementary devices to provide the required functionalities.

Conference/Training Room with Video Conferencing Equipment incorporating 2 projectors.

Video Conferencing Cabling Neatness with Sony Equipment

EMS - beyond technology to understand and meet your needs

Switches, Microphones used in Video Conferencing

This Conference can give a virtual round table when video conferencing

A big part of Video Conferencing is having a nice room where the projector can be hidden away

EMS - beyond technology to understand and meet your needs
